Hard Core Planning to put out things that we want to show

- 1 Research about the topic
- 2 Prepare the Content
- 3 Scripting
- 4 Content - Quality is important
- 5 Bring a surprise element
- 6 Enjoyable Content

Content is not only things what will work, you have to make your content engaging

Content 50%, It is a way of presenting!

You have to be unique in your personal brand so people will remember you!!

Recording a video is like teaching a camera.

All jokes are scripted.

Initial 5-10 seconds of video or content should catch the attention of the audience.

A good teacher is a good actor and good artist.

Confidence, Enthusiasm should be there in content

When he is in front of the camera, he is like on stage. And there are many students sitting. He has trained his subconscious like that.

**\*\* While you are intentionally creating a brand, Don't fake things. Be Genuine and Honest**

1. Find out ways to be unique
2. Personal branding is not about platform, It can be anything
3. When you write a post everyday, then you are expecting to get one of those posts viral and you accidentally become a personal brand.
